

## **HOW TO CARE FOR YOUR BATHTUB/COUNTERTOP**

1. Allow surface to cure for 48 hours before using lightly. Allow 5 additional days before placing anything permanently on resurfaced area. Leave paper on for 24 hrs. This will remind you not to touch the surface.
2. Best cleaners to use are natural organic cleaners or clear products such as:
  - a. Simple Green
  - b. Fantastik (no bleach)
  - c. Dish Soap or shampoo
3. Do not use any products containing bleach, chlorine, ammonia (Windex), vinegar or any other highly acidic products.
4. Do not use any abrasive cleaning products such as:
  - a. VIM
  - b. DUTCH CLEANSER
  - c. TYLEX
  - d. SOS PADS
  - e. COMET
5. Do not use abrasive pads on surface.
6. Do not leave water sitting on surface. Wipe down after each use.
7. When working in or around bathtub/counter, please put down a towel or old blanket first.
8. Use only mildew resistant kitchen and bath silicone around bathtub/counter.
9. Do not leave wet soap or shampoo/conditioner bottles on surface.
10. Do not use a bathmat in bathtub.
11. Do not use bath salts or bath oils in resurfaced bathtub.
12. Extend the life of your bathtub/counter by polishing 1-2 times a year with GEL-GLOSS (available at select Home Hardware locations and Amazon.ca)
